Introduction :

We are NILCO TANNERS PVT. LTD., a leading player in the Leather Tannery & Export market. Based at Vaniyambadi, Tamil Nadu, in Southern India, we are at the hub of the tanning industry. We have gained an enormous experience that has led us to achieve the strong foothold on raw material sourcing. With the fine quality of our finished leather, we cater to a satisfied clientele in domestic and internationally.

Our roots dates back to the late 90s when we first began with manufacturing of finished Goat and sheep leather for Shoe Uppers & lining. With strong focus on quality, we've come a long way since then. Today we have a dedicated team of highly qualified and experienced work force who are fully focussed on making high quality leather and on time delivery.

We Produces 7 million square feet of Finished Leathers per annum. Our company offers a distinct range of Finished Leather that is available in latest colors and attractive designs in accordance with fashion trends. These Finished Leathers are widely appreciated their unique quality. We manufacture and supply these Finished Leathers as per the client's need and are highly appreciated for by our valuable clients.

" Our Range of Eco-Friendly Leathers "

Eco-Friendly Leather :

A new process called Eco green leather which adopt by us, which Changing the trends in fashion and the increasing awareness towards environmental impacts because of chemical discharges have made tanners, and consumers shift their focus towards eco-friendly tanning techniques, and products. Eco leather products are being crafted with much care and are incredibly durable. More than just beautiful and being durable, it has a main solid virtue; it is eco-friendly.
